NOTES

1. Cut the wall opening 10 to 14 in on each side. Do not cut it to the cover size.
2. The rim rests on the wall; the fixed tabs and the sliding tab hold the panel from behind the drywall.
3. Sliding tab shown at rest. The wire spring is not shown.
4. Dimensions in inches [millimetres]. Views are not to scale.
5. Drawn by Buy Access Panels from the manufacturer's CAD. Not a manufacturer-certified drawing or a cutout template. Follow the instructions supplied with your panel.
